

Massachusetts Alliance of Juvenile Court Clinics

Adolescent Consultation Services • Behavioral Health Network • The Brien Center

Children's Friend and Family • Community Healthlink • Justice Resource Institute

Massachusetts General Hospital • Roxbury Youthworks

What You Can Do

All residents of Massachusetts can really help us encourage our elected leaders to make decisions that will improve services for some of the most vulnerable children in the Commonwealth. As a constituent, your calls, letters, faxes, and emails send a powerful message to Senators and Representatives.

In particular, there are times when hearing from you can have a major impact on Juvenile Court Clinics throughout the state. We encourage you to join our low-volume email list. This list is used only to let you know about important steps in the process of improving court clinic services for Massachusetts youth.

To join the list, send an email message to: majcc@kidsandthelaw.org

If you use Outlook, click [here](#).

If you're not a Massachusetts resident, you're also welcome to join our email list to stay up to date with the issues facing court-involved youth!

Thank you for your interest in the issues facing court-involved children and families.
